Email Church For All Nations Culture Impact Team: info@cultureimpactteams.org for questions and to request resources.

What a Culture Impact Team Does

Bullet points for pastors regarding Culture Impact Teams:

- There are people already in your pews who are passionate about engaging the culture, taking action, changing the political process
- Barna research shows that congregants want pastors to speak from the pulpit about social issues and what the Bible says about them

Here is what a Culture Impact Team does:

- Educates and informs the pastor and the congregation about legislative threats, government and cultural infringement on our rights of conscience, freedom of speech and freedom of religion.
- Gives an outlet for action for those in your congregation who are passionate to see our culture and our Government return to Godly values
- Provide voter registration in your church and in your community
- Organize and staff petition drives, rallies, appearances at your state capitol and visits to their legislators
- Invites legislators and experts to speak to your Culture Impact Team
- Invites experts to train your people in phone calling and campaigning for Godly candidates for office
- Church for All Nations will provide your Culture Impact Team with powerful videos where experts can do the talking without your having to invite them to travel and appear before a small group

Church For All Nations can provide resources for you to establish a Government Prayer Altar

- Respond to the Biblical command to pray for those in authority
- Pray with the authority that God has given in His Scriptures
- We can provide them the PowerPoint presentation that we use to speak aloud together the promises, commands and judgments in God's Word
- Our PowerPoint presentation includes maps of the US and of our state and pictures of our president, our governor and Godly candidates for office
